

Main Features

- Industry's first DJ player with Wi-Fi^{®1} source connectivity
- Free rekordbox music management software included
- Now compatible with Serato Scratch Live software
- Redesigned 6.1" full color LCD display with new graphic user interface
- Pro DJ Link: Sync up to 4 CDJ-2000nexus to share one audio source, Beat Sync, and identify music key via Traffic Light
- Performance functions including Slip Mode and Quantize
- DJ software MIDI/HID control

FEATURES

1 Industry's First DJ Player with Wi-Fi® Connectivity

The CDJ-2000nexus offers exciting features and technologies including Wi-Fi® connectivity, a first in the industry, compatibility with Pioneer's new rekordbox™ App for smart devices such as smartphones, tablets and computers, and new functions such as Beat Sync, Wave Zoom and Slip. Newly enhanced features inherited by the CDJ-2000nexus include a selection screen interface for a more intuitive music search experience, increased visibility of the needle search pad, and improved master tempo sound quality.

2 New rekordbox Software Functions

With the included rekordbox music management software installed on a computer, users can organize and catalog their entire music libraries. Newly added features available when rekordbox is used with the CDJ-2000nexus include music file analysis functions such as Wave Form Zoom (wave form expansion) and Key, as well as additional settings such as Active Loop and Hot Cue Auto Load. When music files are imported to rekordbox, the software analyzes each file and prepares it for use specifically for the CDJ player. Key elements of Pioneer's rekordbox software:

- Data Analysis – Wave Zoom, Key, Wave, Beat Grid, BPM, ID3 Tag and more
- Track Settings – Active Loop, Hot Cue Auto Load, Cue, Loop
- Creation and editing of Playlists
- Saving of playback log information

3 Compatible with Serato Scratch Live software

The CDJ-2000nexus now features compatibility with Serato Scratch Live software. The current CDJ-2000nexus firmware Version 1.13 will work in-sync with Scratch Live software Version 2.5.0 for intuitive DJ performance using music files stored on a computer without the need for a control disc.

4 6.1" Full-Color LCD Display

The CDJ-2000nexus features a large full-color WVQGA 6.1-inch (480 x 234) LCD panel for displaying song titles and album art as well as detailed track information. The Wave data of each song is also illustrated on screen and the new Wave Zoom function provides five different levels of magnification of the wave data which are color-coded according to bandwidth.

5 Pro DJ Link

Pioneer's Pro DJ Link feature enables up to four CDJ-2000nexus players to connect via the Link Port and share a single music source. Additional functions added to the CDJ-2000nexus that can be accessed when other players are connected using the Pro DJ Link are:

- **Beat Sync** – Tempo and beat location of music currently playing on one of the device can be matched with the push of a button.
- **Traffic Light** – Shows the keys of music being played by any players connected via Pro DJ Link, making key-compatible music easier to find by a different color indicator.
- **Beat Count and Phase Meter** – The Beat Count, which is the number of beats until a set point (memory cue), and the Phase Meter, which shows the beat/bar of the music, can also be displayed simultaneously by other players.

6 Performance Functions

- **Slip Mode** – When activated, Slip Mode silently continues song playback during a loop, reverse or scratch and continues audible playback at the exact time when the loop, reverse or scratch is ended, resulting in smoother transitions.
- **Quantize** – Utilizing a Quantizing feature, cue points and loops can be set perfectly on-beat. The Quantize feature ensures cue points are set accurately and automatically, correcting and synchronizing beats during manual looping or real-time cueing to reduce off-beat mistakes.
- **My Settings** – The function settings of a player can be saved to smart devices such as smartphones, tablets and computers, USB storage device, or SD memory cards. For additional convenience, the settings can also be made ahead of time on the rekordbox App or software allowing users switch to their settings when a connection is made to the CDJ-2000nexus.
- **Wolfson Processor** – To achieve excellent sound quality, the player is equipped with the audio industry's highly respected Wolfson® DAC processor, delivering a very transparent, accurate audio signal with a highly improved signal-to-noise ratio and increased headroom.

7 Additional Features

- **DJ software MIDI/HID control** – Up to 35 controls on the surface of each player can be used to trigger other devices, such as DJ effectors and software by way of HID and/or MIDI.
- **Active Loop** – Automatically starts loops when playback begins from a specified point.
- **Needle Search** – The touchpad lets the DJ "place the needle" and jump quickly to a specific part of a music track.
- **Load Previous Track** – Playback of prior music that has been loaded to the player will be located (no built-in memory).
- **Rating on the Go** – Users can rate tracks during play for easy reference or sorting.

*Commercially available wireless LAN router separately required for Wi-Fi connection.
 *Requires Serato Scratch Live software download and current CDJ-2000nexus firmware version 1.13

SPECIFICATIONS

Compatible Media	Android phone/Android Tablet, etc., USB storage devices, SD memory cards, computers (Mac/Windows PC), Audio CD, CD-R/RW, DVD±R/RW/RL
Compatible Files	MP3, AAC, WAV, AIFF (iOS version of rekordbox enable to playback only MP3 and AAC)
File Systems Compatible with USB Storage	FAT, FAT32, HFS+ Frequency Range
	4Hz - 20kHz
Signal-to-Noise Ratio	115dB or higher
Total Harmonic Distortion	0.0018% or less
USB Ports	USB-A port x1, USB-B port x1

rekordbox Music Management Software & System Requirements

Supported Operating Systems	Mac OS®X 10.7, 10.6 or 10.5.8, Windows®7 Home Premium/Professional/Ultimate
	Windows Vista® Home Basic/Home Premium/Ultimate/Business (SP2 and above)
	Windows® XP Home Edition/Professional (SP3 and above)
	(*Windows® XP Professional x64 edition is not supported)
Playable Files	MP3/AAC/WAV/AIFF

Audio Output Ports	AUDIO OUT(RCA) x1, DIGITAL OUT (COAXIAL) x1
Other Ports	LAN (100Base-TX) x1, CONTROL (ø3.5mm mini plug) x1
Audio Output Voltage	2.0 Vrms
Power Supply to Use	120V AC(60 Hz)
Power Consumption	37 W
Maximum Dimensions (W x D x H in inches)	12.6 x 15.97 x 4.19
Unit Weight	10.36 lbs
